

CLEANING INSTRUCTIONS FOR SHIP MEDICAL DEPARTMENT FACILITIES

Using COAST WASHROOM CLEANER GP DISINFECTANT

#1. TABLE TOPS & HARD SURFACES: Hold bottle 6-8 inches away from surface. Spray on and allow disinfectant to penetrate and remain wet on surface for 10 minutes for full disinfection. Then wipe clean the surface.

#2. SINKS: Apply on surface, scrub and rinse clean.

#3. TOILET: Dispense in bowl or spray on surface and leave solution wet for 10 minute for disinfection, then wipe off solution with clean cloth or paper towel.

Using NEUTRAL DISINFECTANT CLEANER CONCENTRATE

#4. DECKS: Mix 2-4 oz per gallon of water and mop clean deck surfaces. For use with trigger bottles: Mix 1/2 oz - 1 oz and leave solution wet for 10 minutes (dwell time).
