# CLEANING INSTRUCTIONS FOR SUBMARINE HEADS, BERTHING AREAS, P-WAYS AND MEDICAL DEPARTMENTS

## Using COAST WASHROOM CLEANER GP DISINFECTANT

**#1. SINKS & SHOWERS:** Apply on surface and scrub with non abrasive scouring pad. Rinse off solution with water.

**#2. TOILET TANKS:** Dispense solution in toilet, then scrub and rinse.

**#3. TOILET SEATS:** Spray on seat and leave solution wet for 10 minutes (dwell time). Wipe off solution with clean cloth or paper towel.

**#4. TABLE TOPS & HARD SURFACES:** Hold bottle 6-8 inches away from surface. Spray on and allow disinfectant to penetrate and remain wet on surface for full disinfection. Then wipe the surface clean.

## Using NEUTRAL DISINFECTANT CLEANER CONCENTRATE

**#5. P-WAYS:** Mix 2-4 oz per gallon of water and mop clean p-way surfaces. May also be used for berthing areas. For use with trigger bottles: Mix 1/2 oz - 1 oz and leave solution wet for 10 minutes (dwell time)
