☑ **Citrus Floral Fragrance  
(Similar to Fabuloso)**

A superb quaternary based disinfectant cleaner formulated for both general and hospital use. This EPA registered, dual quaternary, broad spectrum disinfectant cleaner incorporates the very latest scientific germicidal technology into a versatile cleaner for use whenever the reduction of cross infection on environmental surfaces is vital. Our disinfectant is extremely effective against gram-positive and gram-negative bacteria such as Staphylococcus Aureas (Methicillin Resistant) commonly known as MRSA, Vancomycin Resistant Enterococcus (VRE), Salmonella (multiple strains) and E-Coli. It is also EPA registered effective against viruses such as Hepatitis B and HIV-1 (the most predominant sub-type) and fungi which are commonly found in showers and gyms. A safe and effective disinfectant available to use in the daily struggle to control cross-contamination and reduce the spread of COVID-19. Kills Coronavirus on all hard, non-porous surfaces. One-step disinfectant cleaner.

### APPLICATIONS

Recommended use for berthing areas, crew and patient rooms, rest rooms, administrative areas and passage ways to disinfect and sanitize hard surfaces to greatly reduce the risk of cross contamination. Effective on tables, chairs, counter tops, sinks, showers, floors, walls and horizontal surfaces. Neutral pH range at use dilution.

### DIRECTIONS FOR USE

- 1) Always dilute product properly. It is a violation of federal laws to use this product in a manner inconsistent with its labeling. Dilute 1:64 (2 oz. per gal.) for daily cleaning and disinfecting.
- 2) Apply with cloth, mop or mechanical spray device. Allow surface to remain wet for 10 minutes.
- 3) Apply to floors with a clean cotton mop, allowing floors to remain wet for 10 minutes.
- 4) All gross blood spills and OPIM should be decontaminated and disposed of according to the Blood Borne Pathogen Standard. For more information contact your local OSHA office or sales representative.
