All Purpose Kleen

Ease of inceptor Gaylord Hood Cleaning.

This email is to give you support in approving the All Purpose Kleen. This is a great product which I use not just for hoods but on the grills too.

It is non-toxic which is great for submarines. Biodegradable and I use it to clean the deep fat fryer. We had to break it down for use on a small submarine scale. But that's it. I recommend this for submarines and all ships... Hope to see it in the system soon.

Very respectfully,

CS1 James A. Bryant
