G/P Washroom Cleaner

Mr. Garcia,

Thanks for introducing us to your Washroom Cleaner, everyone on the Medical USS Ronald Reagan Medical Staff loves it. We use it all over our department, from the cleaning of our testament rooms to our berthings, bathrooms, and floors. I work in the Lab so I especially like that it's effective against Herpes and HIV, we use it to clean our countertops and sinks in the lab.

Not only have we found it to get the grim off our toilets and floors but we were also presently surprised that it smells so good. Good smelling cleaning products are non-existent on our ships so we were glad to find this one that does the job and makes it smell like something other than jet fuel. Thanks again for your help and I look forward to working with you again.

Very respectfully,

HM3 Sanchez, Raquel
