G/P Washroom Cleaner

Mr. Garcia,

Hello. I am HM2(SW) Aguilar and I currently am onboard USS Crommelin (FFG37). The medical department on board has tried and is extremely pleased with the results that your cleaner produced. We tried cleaning some dirty surgical utensils and were amazed how much faster the blood came off, with your disinfectant cleaner, than with betadine. I was wondering if you could possibly give me the NSN for this product as we would like to continue using this type of cleaner.

Thank you for your time.

Very respectfully,

Albert Aguilar, HM2(SW)
